

I am writing in regards to K-LOVE radio and recent developments regarding LPFM signal concerns.

K-LOVE has been an incredible asset to our community, sharing great music, encouraging talk, news stories, and commentary; as well as an outstanding community calendar with local events. Their staff has always been an encouragement to work with and they are a highly valued organization we support by our ears and our pocketbooks.

If K-LOVE were to go off the air as a result of being displaced by an LPFM broadcaster, we would lose a very valuable part of our community! In addition to losing a key connection to the community, we would lose a provider of much desired and highly appreciated programming. Please realize how important this station is and what a contributor it is to the public interest. Please act in the best interest of this well established foundation in our community by respectfully keeping it on the air - not to be displaced by LPFM service.

Thank you for your time.
